Unit description

This unit provides an introduction to the main ideas and concepts involved in modern economics, and attempts to provide students with an understanding of how the economy works, what type of problems economists attempt to solve, and how they set about trying to solve them. The unit is primarily concerned with the analysis of individual decision-making units, and the behaviour of firms and industries in the economy, i.e. with microeconomics. Topics include: consumer choice and demand analysis; the firm and its production and costs; market structures from perfect competition to monopoly; welfare economics; and market failure and microeconomic reform.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Recognise and communicate the importance of microeconomics in the Australian and global economies

Knowledge and understanding: Recognise how principles of microeconomics are relevant in understanding decision-making by individuals, business and government

Problem solving: Apply theoretical understanding of microeconomics to real life economic problems

Ethics: Demonstrate ability to evaluate economic theory and real world applications in the context of ethical and equity considerations

Assessment Tasks

| Name | Weighting | Hurdle | Due |
|---------------------------------------|-----------|--------|---------------------------|
| Tutorial quizzes | 15% | No | See below |
| Individual Assignment | 25% | No | Tuesday 30 April 2019 5pm |
| Final Exam | 60% | No | Exam period |

Tutorial quizzes

Due: **See below**

Weighting: **15%**

There will be six in-class tests held in tutorials during the session. These will occur in weeks 3, 5, 7, 9, 11 and 13. Each in-class test will involve 10 multiple choice questions.

Specifically:

1. Week 3 test covers lecture topics weeks 1-2.
2. Week 5 test covers lecture topics weeks 3-4.
3. Week 7 test covers lecture topics weeks 5-6.
4. Week 9 test covers lecture topics weeks 7-8
5. Week 11 test covers lecture topics weeks 9-10
6. Week 13 test covers lecture topics weeks 11-12

Each test will begin at exactly 5 minutes past the hour and will run for 5 minutes only. Tests will be run on [Quizizz](#), an online quiz platform, so it is **essential** that you always bring a device with internet connectivity (phone, tablet, laptop) to each class.

More information on the in-class tests will be provided on iLearn.

On successful completion you will be able to:

- Recognise and communicate the importance of microeconomics in the Australian and global economies
- Knowledge and understanding: Recognise how principles of microeconomics are relevant in understanding decision-making by individuals, business and government
- Problem solving: Apply theoretical understanding of microeconomics to real life economic problems

Individual Assignment

Due: **Tuesday 30 April 2019 5pm**

Weighting: **25%**

Each student must submit their assignment by **5 pm on Tuesday 30 April 2019 (Week 8)**. The assignment is **submitted via Turnitin** through iLearn. The emphasis in the assignment will be on using economic theory and reasoning to demonstrate the graduate capability related to 'ethical thinking'. The assignment will be in the form of a written task and worth 25% of your final mark in this unit.

The assignment will be available on iLearn in week 5. Please note that no extensions will be granted. Late assignments will be accepted only up to 96 hours after the submission deadline. Non-acceptance of a submission entails a mark of zero for the assignment. Marks for late submissions will **decay exponentially** at a rate of 1.7% per hour after the submission deadline.

All students who apply for Special Consideration in relation to the assignment will be given an extension if the application is approved. Please consult the Special Considerations Policy.

On successful completion you will be able to:

- Recognise and communicate the importance of microeconomics in the Australian and global economies
- Knowledge and understanding: Recognise how principles of microeconomics are relevant in understanding decision-making by individuals, business and government
- Problem solving: Apply theoretical understanding of microeconomics to real life economic problems
- Ethics: Demonstrate ability to evaluate economic theory and real world applications in the context of ethical and equity considerations

Final Exam

Due: **Exam period**

Weighting: **60%**

End of unit two hour written examination, to be taken during the end of session examination period. The examination will cover material drawn from all parts of the unit's subject matter. The exam will consist of written-answer questions.

What happens if I miss the final exam?

All students who apply for Special Consideration for the final exam will be required to sit a supplementary examination, if the application is approved. Please note that the supplementary examination may have a different format to the original exam. It is reasonable to point out that because students who sit the supplementary examination usually have much longer to prepare for their examination, the supplementary examination will be more difficult and marked at a higher level than the original examination.

On successful completion you will be able to:

- Recognise and communicate the importance of microeconomics in the Australian and global economies
- Knowledge and understanding: Recognise how principles of microeconomics are relevant in understanding decision-making by individuals, business and government
- Problem solving: Apply theoretical understanding of microeconomics to real life economic problems

Delivery and Resources

Textbook:

Students will need to consult this textbook:

- *The Economy: Economics for a Changing World.*

This text is produced by the CORE ECON team, and is available free online at <https://www.core-econ.org/project/core-the-economy/>. You will need to register on the site as a student. It is possible to obtain hard copies if desired.

Note that the CORE project site contains significant additional resources that you should aim to make use of in aiding your learning.

Additional References (in alphabetical order):

Apart from the textbook above, students may find the following resources useful as well. Most reputable microeconomics textbooks cover the same economic theories, but perhaps you may want to refer to supplementary chapters from these texts for topics that you need extra help on. Note that the CORE approach can differ substantially from standard texts, so it will be necessary to consider alternatives judiciously:

- Gans, J., King, S., Byford, M. & Mankiw, N. G. *Principles of Microeconomics: Australia and New Zealand Edition 6th Ed.*, Cengage Learning.
- Hubbard, G., Garnett, A, Lewis, P. & O'Brien, T. *Microeconomics 3rd Ed.*, Pearson, Australia.
- McEachern, W., *Microeconomics: A Contemporary Introduction 11th Ed.*, Cengage Learning.
- Stiglitz, J., Walsh, C.E., Gow, J. & Richmond, B. *Introductory Microeconomics: First Australian Edition*, Wiley.

Students interested in a very readable and non-technical account of where many of the economic ideas studied in this course come from are encouraged to consult:

- Kishtainy, N. (2017). *A Little History of Economics*. London: Yale University Press.

Technology Used and Required

The unit uses the learning management system (iLearn) that can be accessed via iLearn.mq.edu.au. The lecture slides for each week's lecture will be available via the ECHO360 platform on iLearn before the lecture. You will find it useful to consult the slides prior to the lecture, and annotate them the lecture. The iLearn site is also used to post important notices. You should check this regularly. The iLearn web page has the facility to allow peer to peer discussion and also allows students to put questions to an Online-Tutor. The Online-Tutor will attempt to answer your questions in a timely manner.

Learning and Teaching Activities

This unit is taught as a mix of tutorials and lectures. The lectures are designed to provide the tools which can then be applied in tutorials.

Lectures – large group learning (2 hours for each topic)

Lectures are intended to provide an overview of the key concepts explored in the unit. Students are expected to read the relevant chapters before each lecture. Independent learning ECON111 relies heavily on independent learning where students read the relevant chapter, revise lecture notes and prepare answers to the tutorial questions.

Tutorials – small group learning (1 hour for each topic)

Tutorials constitute a critical learning experience of this unit and students must attend. Group work is an essential part of this learning. In ECON111 we emphasise peer-to-peer learning by working as a group through the exercises and learning from others. Your tutor's role is to help you understand the material. Ask your tutor for guidance on how to approach questions and problems.

After the tutorials – the learning continues. At the end of each teaching day, review your tutorial notes, compare your answers to those of friends, members of your group and the discussion board. Note that model answers will not be provided. You get the answers by engaging in all the

above activities.

PAL, Peer Assisted Learning (1 hour for each topic)

Revision of the material from both lectures and tutorials.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#) (**Note:** *The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.*)

Undergraduate students seeking more policy resources can visit the [Student Policy Gateway \(https://students.mq.edu.au/support/study/student-policy-gateway\)](https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/study/getting-started/student-conduct>

Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module for Students](#)
- [Ask a Learning Adviser](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

If you are a Global MBA student contact globalmba.support@mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Recognise and communicate the importance of microeconomics in the Australian and global economies
- Knowledge and understanding: Recognise how principles of microeconomics are relevant in understanding decision-making by individuals, business and government

- Problem solving: Apply theoretical understanding of microeconomics to real life economic problems
- Ethics: Demonstrate ability to evaluate economic theory and real world applications in the context of ethical and equity considerations

Assessment tasks

- Tutorial quizzes
- Individual Assignment
- Final Exam

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Recognise and communicate the importance of microeconomics in the Australian and global economies
- Knowledge and understanding: Recognise how principles of microeconomics are relevant in understanding decision-making by individuals, business and government
- Problem solving: Apply theoretical understanding of microeconomics to real life economic problems
- Ethics: Demonstrate ability to evaluate economic theory and real world applications in the context of ethical and equity considerations

Assessment tasks

- Tutorial quizzes
- Individual Assignment
- Final Exam

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

- Recognise and communicate the importance of microeconomics in the Australian and global economies
- Knowledge and understanding: Recognise how principles of microeconomics are relevant in understanding decision-making by individuals, business and government
- Problem solving: Apply theoretical understanding of microeconomics to real life economic problems
- Ethics: Demonstrate ability to evaluate economic theory and real world applications in the context of ethical and equity considerations

Assessment task

- Individual Assignment

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcomes

- Recognise and communicate the importance of microeconomics in the Australian and global economies
- Knowledge and understanding: Recognise how principles of microeconomics are relevant in understanding decision-making by individuals, business and government
- Problem solving: Apply theoretical understanding of microeconomics to real life economic problems
- Ethics: Demonstrate ability to evaluate economic theory and real world applications in the context of ethical and equity considerations

Assessment task

- Individual Assignment

Changes from Previous Offering

The text and curriculum have changed.

The online quizzes outside tutorials have been removed, and in-class tests added.
