Co-badged status

Unit description

Environmental issues are gaining prominence in both national and international politics and it is increasingly apparent that human activities are driving significant changes in our planet's environment. This unit provides a critical introduction to the theory and practice of global environmental politics and its interaction with other areas of global governance. Students will be introduced to debates in green political theory, to developing world perspectives on the environmental movement and to the ways in which environmental issues are conceptualised by major theories of international relations. Cases covered will be drawn from both Australian and international contexts. They will include climate change, geoengineering, energy security, biodiversity, human-animal relationships, food security and management of common pool resources such as forests, airsheds and fisheries.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Outline and critically evaluate theoretical and practical debates related to global environmental politics.

Identify and analyse interconnections between environmental issues and broader dynamics in international politics.

Discuss international institutional responses to the claims of environmental movements. Communicate information accurately and clearly on global environmental issues in oral, written and graphic forms.

Lead and participate in class discussions.

Access a wide range of resources to complete a prescribed research task related to global environmental politics.

Synthesise knowledge to develop an informed perspective on 'environmental citizenship' and individual responsibilities concerning global environmental challenges.

General Assessment Information

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Reading Quiz Questions</u>	15%	No	Weeks 2-11
<u>Research Essay & Presentation</u>	45%	No	Tuesday Week 9
<u>Take home examination</u>	25%	No	Week 13
<u>Participation</u>	15%	No	Week 4

Reading Quiz Questions

Due: **Weeks 2-11**

Weighting: **15%**

Multiple quizzes available on ilearn that assess comprehension of assigned weekly readings. Grades will be based on the best of 6 (out of 9) quizzes. This means it is possible to skip three quizzes without penalty. Each quiz must be completed before 11pm on the evening before the lecture. You will have 20 minutes from the time you log into the weekly quiz in which to complete it. Each weekly quiz is worth 2.5% of your total grade for the unit (2.5% x 6 =15%).

Further information and reading guides that the quiz questions are drawn from will be available on ilearn.

This is a timed assessment and no late submissions will be accepted.

On successful completion you will be able to:

- Outline and critically evaluate theoretical and practical debates related to global environmental politics.
- Identify and analyse interconnections between environmental issues and broader dynamics in international politics.
- Communicate information accurately and clearly on global environmental issues in oral, written and graphic forms.

Research Essay & Presentation

Due: **Tuesday Week 9**

Weighting: **45%**

This is a research essay of 2500 words. Essay questions and marking criteria will be provided on iLearn. All students are required to submit their essays via the turnitin link on ilearn. All students are asked to nominate an essay question they will address by the end of week 4 and post their choice to ilearn (a discussion thread will be provided).

Internal students will be required to give a 5 minute presentation/ discussion summarising their essay's argument during class. These presentations should summarise your argument and identify a question for discussion by the class. Presentations will not be graded separately, but for internal students they are a requirement for completion of the essay and award of grades.

All students are encouraged to submit an introductory paragraph that outlines the central argument and essay structure to the unit convenor by the end of week 5 (via email: jonathan.symons@mq.edu.au), so they can receive feedback prior to completing the essay.

On successful completion you will be able to:

- Outline and critically evaluate theoretical and practical debates related to global environmental politics.
- Identify and analyse interconnections between environmental issues and broader dynamics in international politics.
- Discuss international institutional responses to the claims of environmental movements.
- Communicate information accurately and clearly on global environmental issues in oral, written and graphic forms.
- Lead and participate in class discussions.
- Access a wide range of resources to complete a prescribed research task related to global environmental politics.
- Synthesise knowledge to develop an informed perspective on 'environmental citizenship' and individual responsibilities concerning global environmental challenges.

Take home examination

Due: **Week 13**

Weighting: **25%**

An end-of-semester take home exam will cover content drawn from the entire unit (approx 1000 words). The questions will be released in class and on ilearn at midday on Monday of week 13 - responses must be submitted by Thursday 11pm.

This is a timed assessment and no late submissions will be accepted. If it is not possible for you to sit the take-home exam in this period due to ill health of timetable clashes, please contact jonathan.symons@mq.edu.au and a replacement exam period will be organised.

On successful completion you will be able to:

- Outline and critically evaluate theoretical and practical debates related to global environmental politics.
- Identify and analyse interconnections between environmental issues and broader dynamics in international politics.
- Discuss international institutional responses to the claims of environmental movements.
- Communicate information accurately and clearly on global environmental issues in oral, written and graphic forms.
- Synthesise knowledge to develop an informed perspective on 'environmental citizenship' and individual responsibilities concerning global environmental challenges.

Participation

Due: **Week 4**

Weighting: **15%**

Internal Students: 10% of internal students' final grade will be based on participation in an in-class activity. The activity is available on ilearn and will be explained in detail in lectures/tutorials. Groups will be formed in week 2 and some time will be allowed for initial preparation in the week 3 lecture/tutorial. The activity will conclude and be graded in the Week 4 tutorial. Submission of a country case study (300-500 words) plus a reflection (100-200 words) on the in-class negotiation must be submitted by 11pm Monday 20 August.

5% of internal students' grade will be based on participation in tutorials across the semester.

External students will be graded on their participation in discussion on iLearn. Discussion will only be graded if contributions are made within 1 week after the lecture on a given topic.

Alternative tasks: Internal students who are unable to participate in the Week 3/4 activity for a valid reason (documented ill health or special circumstances) will be graded on their participation across the unit as a whole and asked to submit a short piece of writing that replicates the country case study.

On successful completion you will be able to:

- Outline and critically evaluate theoretical and practical debates related to global environmental politics.
- Discuss international institutional responses to the claims of environmental movements.
- Communicate information accurately and clearly on global environmental issues in oral, written and graphic forms.
- Lead and participate in class discussions.
- Synthesise knowledge to develop an informed perspective on 'environmental citizenship' and individual responsibilities concerning global environmental challenges.

Delivery and Resources

Delivery

For lecture times and classrooms please consult the MQ Timetable website: <http://www.timetables.mq.edu.au>. This website will display up-to-date information on your classes and classroom locations.

Internal students are expected to attend the following classes each week:

Lecture: Monday 10-12pm [14 Eastern Rd - 386 Tutorial Rm](#)

Tutorials: Depending on student numbers 12pm [4 Western Rd - 303 Tutorial Rm](#) and 3pm [25a Walkers Walk - 109 Tutorial Rm](#). Note that tutorial room allocations often change before semester commences, so these classrooms may be incorrect.

NOTE: Tutorials will begin in Week 2.

External students: The lecture is digitally recorded and can be downloaded from the iLearn website shortly after it is delivered. You will also find lecture slides on the iLearn site.

External students are required to participate actively in discussion on the iLearn website (further details are given in the section on Assessment.)

External students are welcome to attend weekly lectures whenever they can.

Required resources:

There is one required text for this unit which should be available for purchase from the Macquarie University Coop Bookstore:

O'Neill, Kate (2016 2nd Edition) *The Environment and International Relations*. Cambridge, UK; New York: Cambridge University Press. If you have access to a copy of the first edition (2009) that will also be sufficient.

Access to this text will be necessary in order to complete the reading quizzes. Although the library has an electronic copy of this text, access through the library cannot be guaranteed. All other unit readings will all be available on iLearn or e-reserve. Students who wish to purchase an additional reference text might consider:

Axelrod Regina et al. (2014, 4th ed) The Global Environment: Institutions, Law and Policy, Washington. D.C.: CQ Press

Unit Schedule

Week 1 - 29 July

Introduction: Green Political Theory, Globalisation and the Anthropocene

*Tutorials commence in week 1 in this unit.

Week 2 - 5 Aug

International Relations Theory and Global Environmental Problems

First week of weekly ilearn reading quizzes that must be completed by Sunday 11pm each week (the evening before the lecture). Your grade is based on your best 6 scores out of 9 quizzes.

Week 3-4 class activity on solar geoengineering is introduced in the Lecture and Tutorial this week.

Week 3 - 12 Aug (Reading quiz due 11 Aug)

Actors: States, Epistemic Communities, NGOs, Multinational Corporations.

NB: Please nominate which research question you will address this week via the iLearn discussion forum.

Week 4 - 19 Aug (Reading quiz due 18 Aug)

International Environmental Regimes

graded class participation activity in this week's tutorial Final version of class participation notes to be submitted to ilearn by 11pm 19 August.

Week 5 - 26 Aug (Reading quiz due 25 Aug)

Intersecting Regimes: Environment, Trade and Security

Week 6 - 2 Sept (Reading quiz due 2 Sept)

Common Pool Resources: Forests, Airsheds and Fisheries

Week 7 - 9 Sept (Reading quiz due 8 Sept)

Global Public Goods: Climate change

MID SEMESTER BREAK: 14 to 29 September

Week 8 - 30 September (Reading quiz due 29 Sept)

Energy Security

Week 9 - Labour Day Public Holiday - No Classes or Reading Quiz.

Essay due Tuesday 8 October 5pm

Week 10 - 14 Oct - (Final reading quiz due 13 Oct).

Food Security & Agriculture

Week 11 - 21 Oct

Biodiversity and Human–Animal Relationships

Week 12 - 28 Oct

Capitalism, Degrowth & Innovation

Week 13 - 4 November

Conclusion: Further down into the imbroglios. Lecture but no tutorials this week.

Take-home exam opens Monday 4 November 12pm, closes Thursday 7 November 10 pm. I estimate most students will spend about 1 day (7-8 hours) on the take home exam.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#) (**Note:** *The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.*)

Undergraduate students seeking more policy resources can visit the [Student Policy Gateway \(https://students.mq.edu.au/support/study/student-policy-gateway\)](https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/study/getting-started/student-conduct>

Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit <ask.mq.edu.au> or if you are a Global MBA student contact globalmba.support@mq.edu.au

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (<mq.edu.au/learningskills>) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module for Students](#)
- [Ask a Learning Adviser](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at <ask.mq.edu.au>

If you are a Global MBA student contact globalmba.support@mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be

imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Learning outcomes

- Identify and analyse interconnections between environmental issues and broader dynamics in international politics.
- Discuss international institutional responses to the claims of environmental movements.
- Lead and participate in class discussions.

Assessment tasks

- Reading Quiz Questions
- Research Essay & Presentation
- Take home examination
- Participation

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcome

- Synthesise knowledge to develop an informed perspective on 'environmental citizenship' and individual responsibilities concerning global environmental challenges.

Assessment tasks

- Research Essay & Presentation
- Take home examination
- Participation

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Learning outcome

- Access a wide range of resources to complete a prescribed research task related to global environmental politics.

Assessment task

- Research Essay & Presentation

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Outline and critically evaluate theoretical and practical debates related to global environmental politics.
- Identify and analyse interconnections between environmental issues and broader dynamics in international politics.
- Access a wide range of resources to complete a prescribed research task related to global environmental politics.

Assessment tasks

- Reading Quiz Questions
- Research Essay & Presentation
- Take home examination
- Participation

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Outline and critically evaluate theoretical and practical debates related to global environmental politics.
- Identify and analyse interconnections between environmental issues and broader dynamics in international politics.
- Communicate information accurately and clearly on global environmental issues in oral, written and graphic forms.

Assessment tasks

- Reading Quiz Questions
- Research Essay & Presentation
- Take home examination
- Participation

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Identify and analyse interconnections between environmental issues and broader dynamics in international politics.
- Discuss international institutional responses to the claims of environmental movements.
- Communicate information accurately and clearly on global environmental issues in oral, written and graphic forms.
- Access a wide range of resources to complete a prescribed research task related to global environmental politics.

Assessment tasks

- Reading Quiz Questions
- Research Essay & Presentation
- Take home examination
- Participation

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

- Discuss international institutional responses to the claims of environmental movements.
- Communicate information accurately and clearly on global environmental issues in oral, written and graphic forms.
- Lead and participate in class discussions.

Assessment tasks

- Reading Quiz Questions
- Research Essay & Presentation
- Take home examination
- Participation

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcomes

- Outline and critically evaluate theoretical and practical debates related to global environmental politics.
- Identify and analyse interconnections between environmental issues and broader dynamics in international politics.
- Synthesise knowledge to develop an informed perspective on 'environmental citizenship' and individual responsibilities concerning global environmental challenges.

Assessment tasks

- Reading Quiz Questions

- Research Essay & Presentation
- Take home examination
- Participation

Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

Learning outcomes

- Communicate information accurately and clearly on global environmental issues in oral, written and graphic forms.
- Synthesise knowledge to develop an informed perspective on 'environmental citizenship' and individual responsibilities concerning global environmental challenges.

Assessment tasks

- Reading Quiz Questions
- Research Essay & Presentation
- Take home examination
- Participation

Changes from Previous Offering

Minor changes have been made to the assessment tasks: - the graded participation activity for internal students has been altered slightly - a 5% class participation grade for internal students has been added and the participation grade for external students has been increased to 15% - hurdle requirements for participation have been removed for all students as per university policy - the final exam has been reduced in length and weighting; - more reading quizzes have been added so students have more choice over which weeks (6 of 9) in which to complete reading quizzes.
