Unit description

Today, the competitive business world needs people who can bridge the gap between theory and practice. Businesses need marketers who can integrate their knowledge and consolidate their skills essential in designing and implementing marketing research projects to understand market behavior and develop useful marketing strategies. This unit develops students' ability to apply marketing theory to practice through solving a marketing problem for a Client Partner. This unit focuses on identifying factors which influence the competitive positioning of a firm within an industry and to achieve an ethical, socially responsible, and sustainable competitive advantage. The unit is delivered in intensive mode, of two three-hour seminars each week for the last six weeks of the session. MKTG303 also runs two three-hour seminars each week but in the first seven weeks of the session. Both units are designed to complement one another, ideally taken in the same session. If taking both MKTG303 and MKTG304 together in the same session, please choose the same stream for both.
