Unit description
Our bodies give us a world, and have meaning, both for ourselves and others. We are directed at every level to align our bodies with cultural norms – but what about modes of embodiment that don’t conform to what we generally understand as ‘normal’? In this unit, we turn our attention to unquestioned assumptions about what constitutes a ‘normal’ body, consider how these norms are created and think through the experiences of people who challenge them. Lectures, tutorials and assessments will draw extensively on screen texts, including documentaries, “selfies” in social media, apps and other digital tools as well as autobiographical video and film, exploring how ideas about “normal” and “abnormal” bodies come to form part of our everyday lives. Our critical examination may cover disability, pregnancy, fatness, ageing, companion animals, surgical interventions and other forms of body modification. The aim of this unit is to think through the ways in which various forms of (ab)normal embodiment are understood in contemporary culture and to explore the social, political and ethical effects of these understandings.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

identify the ways in which ‘the body’ is understood and experienced across a range of
contexts
interrogate key concepts around ‘the body’ and normalising practices, showing an awareness of debates around definitions of these terms
effectively communicate a theoretically-informed account of the relationship between forms of knowledge and forms of embodied subjectivity and sociality
use key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being
critically discuss ethics in contemporary practices and debates around normalisation of ‘the body’
actively engage with the process of learning and reflect on own work to identify opportunities for further development

University standards on assessment

More information about university standards on assessment can be found at:

Practices on late submission

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

Reflective summaries

Due: **9 am Tuesday Weeks 2-6, 8-12**

Weighting: **10%**

Students will be required to submit, online via iLearn, ten short reflections on weekly readings. Each reflection should refer to all key readings for the week. Ten summaries should be submitted on weeks 2-6 and 8-12. Reflective summaries should be submitted by 9 am on Tuesday mornings each week (except for Week 7). The reflective summary for Week 2’s key readings for instance, should be submitted online at 9 am Tuesday 5th of March BEFORE the Week 2 lecture and tutorials.

Reflections should be between 250 and 350 words in length, and should summarise selected key ideas from ALL readings set for that week. Students may choose to focus on one reading and make a limited number of comparisons and connections to the second (and in some cases third) reading. Reflections may also include connections between weekly readings and lectures and readings for previous weeks and comments on the relationship between readings and embodied practices or experiences. Reflective summaries are not expected to reflect a perfect understanding of the essential readings, but to be a starting point for further thinking and discussion.

The aim of this exercise is to ensure that students read and engage with the set readings so that they develop a scholarly understanding of issue and debates, and that class discussion is informed and productive. Consequently reflections posted after 9 am on Tuesday morning on the week the reading is set will receive 0, unless a student has lodged a disruption to study application.

**Criteria for summaries:**

- Timely production of summary
- Engagement with appropriate readings
- Fulfilling the writing brief

**Full rubrics containing standards of performance required for each grade level for this assessment can be found on the ilearn site for CUL322.**
On successful completion you will be able to:

• identify the ways in which ‘the body’ is understood and experienced across a range of contexts

• interrogate key concepts around ‘the body’ and normalising practices, showing an awareness of debates around definitions of these terms

• actively engage with the process of learning and reflect on own work to identify opportunities for further development

Essay outline & meeting

Due: Midnight Mon Ap 8/Ap 9-10
Weighting: 20%

This assessment consists of two components:

1. an essay plan, to be posted to Turnitin by midnight Monday April 8 (beginning of Week 7)
2. a 5-10 minute planning meeting, to occur during Week 7 (April 9-10), in which each student will summarise their plan and receive feedback and advice from their tutor.

The essay outline

This outline should be no longer than 500 words, plus bibliography. It should clearly outline the question or problem to be discussed, line of argument or position, key theoretical perspectives to be used, and the case study or cultural practice which will be the focus of your essay. Your outline should map out key points in your argument in the order in which you will present them in the final essay. You should write in paragraphs.

The outline should not be a "mini essay" but should indicate clearly your plans. You are welcome to use the words "I" and "my". Useful starting points for the essay outline may include sentences like "This essay will" "My case study for this essay will be" "I will argue that" "My key theoretical reference points will be" or "My three key points will be"

The outline should include a bibliography no less than five sources which you plan to use in your essay. At least two of these sources should be from the key readings in the unit. At least two should be from your independent research. You should use in-text referencing as appropriate in your outline. You may choose whatever referencing system you prefer, though Harvard style will be warmly received. The bibliography is IN ADDITION to the 500 word limit of the outline.

Late assignments will be penalised by 2% of the mark allocated per day, unless the student has documented medical or personal reasons for late submission. Extensions for personal or medical reasons must be negotiated before the assignment. Failure to attend the planning meeting will result in loss of marks.

Criteria for essay outline:
- Understanding of key concepts around embodiment
- Awareness of theories and debates and positioning essay within those debates
- Appropriate reading and research, including both key readings and peer reviewed independent sources within the discipline
- Identification of appropriate practices to discuss in essay
- clarity of expression and use of appropriate genres of academic communication
- effectively mapping out an argument

The planning meeting

A 1:1 meeting with your tutor during Week 7 in place of tutorials that week. A schedule for 1:1 meetings will be circulated during tutorials in Weeks 5-6. These meetings will be on Tuesday 9th and Wednesday 10th and may take place outside your normal tutorial hours. The informal meeting will be 5-10 minutes long and take place in your tutor's office (for Nicole Y3A 165c). In the meeting you will be asked to provide a verbal summary of your plans for the essay including the question or problem to be discussed, line of argument or position, key theoretical perspectives to be used, and the case study or cultural practice which will be the focus of your essay.

You will be invited to raise any difficulties may have experienced in preparing the essay outline and to ask any questions you may have on content or approaches to essay. Your tutor will provide verbal feedback on your plans for the essay and offer advice on next steps.

You are STRONGLY ENCOURAGED to audio record the advice offered by the tutor in this meeting on your phone, as written feedback will not be given on the submitted version of the plan. If you do not have access to a recording device, please let Nicole know and she will make one available for you.

In addition to posting the essay outline to Turnitin by the deadline, you will need to bring a paper copy of your outline to give to the tutor during the meeting.

Criteria for the planning meeting

- prompt arrival at the scheduled time
- evidence of preparation for the meeting
- clear and coherent explanation of plans for the essay
- active engagement in conversation about essay planning with the tutor
- evidence of reflection on your own learning so far and demonstrated ability to identify difficulties or challenges that you need support with in developing your essay

Full rubrics containing standards of performance required for each grade level for this assessment can be found on the ilearn site for CUL322.
On successful completion you will be able to:

- identify the ways in which ‘the body’ is understood and experienced across a range of contexts
- effectively communicate a theoretically-informed account of the relationship between forms of knowledge and forms of embodied subjectivity and sociality
- use key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being
- actively engage with the process of learning and reflect on own work to identify opportunities for further development

Participation

Due: Ongoing
Weighting: 15%

All students are expected to attend face-to-face lectures and tutorials and participate in discussions in class. Your grade will depend on the quantity and quality of participation. While attendance is not sufficient for participation, in most cases it is a necessary precondition for participation.

Attendance in both lectures and tutorials will be recorded each week.

If you are unable to attend a particular lecture you will be required to submit 5 discussion questions relating to the material in the lecture and associated reading to an iLearn discussion forum by 9 am on the Monday AFTER the lecture you have missed.

Criteria for participation grade:

- Evidence of undertaking action to identify learning needs. Evidence of such action will include attendance and participation in tutorials, attendance and participation in lectures or timely uploading of lecture-based discussion questions
- Evidence of engagement in the process of learning and preparation for learning, including reading and reflection before lectures and tutorials to allow effective learning to take place
- Thoughtful and ethical engagement with peers, lecturer and/or tutor in lectures and tutorials

Full rubrics containing standards of performance required for each grade level for this assessment can be found on the ilearn site for CUL322.

On successful completion you will be able to:

- identify the ways in which ‘the body’ is understood and experienced across a range of contexts
• use key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being
• actively engage with the process of learning and reflect on own work to identify opportunities for further development

Essay
Due: Midnight Monday 13 May
Weighting: 40%

Length: 1500 - 2000 words. Essay questions will be posted on unit webpage by the end of Week 2.

Late assignments will be penalised by 2% of the mark allocated per day, unless the student has documented medical or personal reasons for late submission. Extensions for personal or medical reasons must be negotiated before the assignment due date.

Criteria for the essay

1) effective engagement with the chosen question, including clarity of expression, structure of argument, range and quality of research undertaken and complete and accurate referencing
2) selection, understanding and effective use of appropriate concepts, theorists and debates from lectures and essential readings
3) relevance, originality and effective analysis of case study materials chosen
4) consideration of question of ethics
5) reflection on the perspective and limitations of sources and on own position and perspective

Full rubrics containing standards of performance required for each grade level for this assessment can be found on the ilearn site for CUL322.

On successful completion you will be able to:
• identify the ways in which ‘the body’ is understood and experienced across a range of contexts
• interrogate key concepts around ‘the body’ and normalising practices, showing an awareness of debates around definitions of these terms
• effectively communicate a theoretically-informed account of the relationship between forms of knowledge and forms of embodied subjectivity and sociality
use key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being

critically discuss ethics in contemporary practices and debates around normalisation of ‘the body’

actively engage with the process of learning and reflect on own work to identify opportunities for further development

Reflection

Due: Midnight Tuesday June 4
Weighting: 15%

This final assessment will require each student to select one concept or reading considered in CUL322 during the course of the semester. In the reflection each student will discuss the way in which this concept or reading EITHER

(a) provides new critical or analytical perspectives on one aspect of their own embodied experiences OR

(b) provides new critical or analytical perspectives on an instance of instance of embodiment in the media

This assignment requires students to reflect on how the ideas discussed in this course during the semester might be relevant to their own past or future lives or an example of embodiment as visible to the media.

Students will be required to present a 3-5 minute presentation which

- briefly introduces the pertinent features of the concept or reading to be considered

- use this concept to analyse some aspect of their own embodied experience OR an instance of embodiment in the media

Students can choose to present in their tutorial in Week 13 or the presentation can be audio or video recorded and posted to VoiceThread on ilearn.

Mode of presentation

Students are welcome to use a variety of formats. They may choose:

- to bring in an object in to class as a focus for discussion

- to use one or more personal photographs, maps, advertisements or images from television or the internet as part of the presentation

- to use Powerpoint, Prezi or other visual aids alongside their talk

- to record themselves speaking to a video camera

- to record an audiotrack over a series of images or a set of powerpoint slides
- make a short film

There is no obligation to speak about very personal aspects to embodied identity, although you are welcome to do so if you wish. We are equally happy to have you reflect on your embodied experience of paid work, being a grand daughter or a twin, belonging to a particular religious community, getting up in time as a student, having a pet or using a fitness app as your experiences of illness or disability, sexuality or pregnancy.

Throughout the semester we will be looking at many texts that analyse and reflect on the author/filmmaker's personal embodied experiences. These include documentaries such as Orchids (Week 4) and Vital Signs (Week 5) and key and extended readings, including Alice Dreger (Week 4), Anne Finger (Week 5), Liz Crow (Week 9), Morton Bulow and Mary-Louise Holm (Week 10), Jane Crisp (Week 10), Julia Belser (Week 11) and Donna Haraway (Week 12). These films and readings will show you some of the different ways of effectively discussing and analysing embodied experience. Clearly the words "I" and "my" are not just allowed but pretty much necessary here! However drawing on your own experience does not mean losing academic rigour.

Tutorials during which face to face presentations will take place will be on Tuesday June 4. All online presentations must be completed and associated materials posted by midnight on Tuesday June 4. Students who choose to present face-to-face in class will be asked to post their notes, script or slides to VoiceThread to allow moderation of marks by the same time.

Criteria for assessment:
- appropriate selection of concept or reading
- demonstrated understanding of concept or reading
- effective communication skills, including structure, mode and length of presentation
- identification, description and analysis of relevant embodied experience or representation
- application of concepts and arguments to case study

Full rubrics containing standards of performance required for each grade level for this assessment can be found on the iLearn site for CUL322. Examples of various types of reflection from previous years will be presented to students in tutorials in Weeks 10 and 11.

On successful completion you will be able to:
- identify the ways in which ‘the body’ is understood and experienced across a range of contexts
- interrogate key concepts around ‘the body’ and normalising practices, showing an
awareness of debates around definitions of these terms

• effectively communicate a theoretically-informed account of the relationship between
  forms of knowledge and forms of embodied subjectivity and sociality

• use key methods of critical analysis to discuss social, economic, legal and/or medical
  practices which focus on bodily-being

• actively engage with the process of learning and reflect on own work to identify
  opportunities for further development

Delivered and Resources

This unit will use iLearn for submission of assignments, including reflections. However, attendance at lectures and tutorials is important as indicated by the participation mark.

Lectures are interactive and class discussion in lectures is poorly recorded on iLecture, making face-to-face attendance highly valuable for students. A roll will be taken in both lectures and tutorials and attendance will be recorded.

We understand that sometimes there are compelling reasons why students cannot attend lectures, such as caring responsibilities or medical conditions. Students who cannot attend the lecture but wish to maintain a high participation mark for the unit will be required to post five discussion questions relating to the lecture and reading material for that week to a discussion board on iLearn by 9 am on the Monday following the lecture they have missed.

Equally, reading the set texts for the week is essential for completion of the unit. Reflective summaries of key readings must be submitted on-line BEFORE that week's lecture and tutorials. These summaries are not expected to be written beautifully or show an in depth understanding of the reading - they just need to be completed in a timely way on the appropriate two readings.

The readings for the unit will be available in electronic format via the library.

Suggestions for further readings are offered for most weeks, to enable deeper reading on the topic for those who are passionately interested, or are writing an essay or putting together an autobiographical reflection on that theme. These are just the starting point for your further reading.

PLEASE do use the library as a resource for your essays as well as for the weekly readings. Millions are spent purchasing subscriptions to the academic journals and databases held there - they cover much more territory than Google Scholar or other publicly available databases. A good reminder of the libraries resources can be found at: https://libguides.mq.edu.au/mmccs/home If you struggle to find appropriate material, please get in contact with Nicole or speak to the staff at the library.

Unit Schedule

CUL 322 Ab/normal bodies

Block 1: Creating “normal”
**Unit guide** CUL 322 Screening (Ab)normal Bodies

**Week 1 (Feb 26): Introduction to the unit**

- Urla, Jacqueline and Terry, Jennifer (1995) "Introduction: Mapping Embodied Deviance" (exerpts) from *Deviant Bodies*, Indiana University Press

Note that there WILL be a tutorial this week

**Week 2 (Mar 5) Biopower and perfect babies**

*Extension reading*

**ASSESSMENT:** reading summaries begin this week. The first summary is due only before class by 9am on Tuesday Mar 5 BEFORE class.

**ASSESSMENT:** participation begins to be recorded this week. If you cannot attend the "live" lecture make sure you post 5 discussion questions based on the recorded lecture by the following Monday.

**Week 3 (Mar 12): abnormalcy**

*Extension reading*

**Unit guide** CUL 322 Screening (Ab)normal Bodies

**Week 4 (Mar 19): (Inter)sexed bodies**

**Further reading**

**Week 5 (Mar 19): dis/ability**

**Further reading**

- Finger, Anne (2005) “Writing disabled lives: beyond the singular” *PMLA Conference on Disability Studies and the University* 610-615
- Siebers, Tobin 2008 “Body Theory” in *Disability Theory* 53-69

**Week 6 (April 2): from eugenics to genetics**

**Further reading**

https://unitguides.mq.edu.au/unit_offerings/97333/unit_guide/print

• Eve Kittay (2009) “The personal is philosophical is political: a philosopher and mother of a cognitively disabled person sends notes from the battlefield” from *Metaphilosophy*, 40(3-4) 606-627

**Week 7: No lecture, tutorials or readings.**

**ASSESSMENT: Essay outline due: Midnight Monday April 8**

Instead there will be one to one consultations on essays on Tuesday/Wednesday of this week. Timetable of meetings to be circulated in Week 5 and 6. These 1:1 essay planning meetings are assessed and attendance is required.

**MID SEMESTER BREAK**

**Block 2: “Normal” lives**

**Week 8 (April 30) Working bodies**

• Thompson, E.P. (1967) “Work Discipline and Industrial capitalism” *Past and Present* 38 pp.56-97

**Further reading**

• Mitchell, David and Sharon Snyder (2016) “Disability as multitude: reworking non-productive labor power” pp.204-222 from *The Biopolitics of Disability*, University of Michigan

**Week 9 (May 7) Active and debilitated bodies**

• Burke, Lucy and Crow, Liz (2016) “Ch5: Bedding out: art, disability and media” from
Katie Ellis, Mike Kent (eds) Disability and Social Media: Global Perspectives, Taylor and Francis

Further reading

• Shildrick, Margrit (2015) “Living on; not getting better” feminist review 111 2015

**Week 10 (May 14) Ageing bodies**

**ASSESSMENT: Essays are due by midnight Monday May 13.**

Further reading

**Week 11 (May 21) Biomediation: bodies, technologies and normalcies**

**Week 12 (May 28): Life on us: waste and the limits of the human body**

• *Haraway, Donna (2011) “Awash in Urine: " from Women’s Studies Quarterly 40(1&2)

There will be no lecture or tutorials for this week. Instead you will be required to listen to half hour two ABC radio documentaries: “Shit Happens” and “Shit Matters”. Links are available on ilearn.
Instead of tutorials you will have the opportunity to arrange a 1:1 with Nicole to discuss your final assessment. 1:1s in Week 12 are not compulsory or assessed.

You WILL be required to complete a reading summary for this week.

**Week 13: (June 4) Review lecture: human and non-human bodies**

**ASSESSMENT: Reflections are due to be presented/uploaded by midnight Tuesday 4th of June.**

The lecture and tutorials WILL run this week to allow those students presenting their reflection “live” to present to the class.

There is no reading or reading summary for this week.

---

**Policies and Procedures**

Macquarie University policies and procedures are accessible from Policy Central ([https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central)). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Grade Appeal Policy
- Complaint Management Procedure for Students and Members of the Public
- Special Consideration Policy *(Note: The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.)*

Undergraduate students seeking more policy resources can visit the Student Policy Gateway ([https://students.mq.edu.au/support/study/student-policy-gateway](https://students.mq.edu.au/support/study/student-policy-gateway)). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit Policy Central ([https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central)).

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/study/getting-started/student-conduct](https://students.mq.edu.au/study/getting-started/student-conduct)
Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

MMCCS website https://www.mq.edu.au/about_us/faculties_and_departments/faculty_of_arts/department_of_media_music_communication_and_cultural_studies/

MMCCS Session Re-mark Application http://www.mq.edu.au/pubstatic/public/download/?id=167914

Information is correct at the time of publication

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

Student Enquiry Service

For all student enquiries, visit Student Connect at ask.mq.edu.au

If you are a Global MBA student contact globalmba.support@mq.edu.au

Equity Support

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University’s IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.
Graduate Capabilities

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- identify the ways in which ‘the body’ is understood and experienced across a range of contexts
- interrogate key concepts around ‘the body’ and normalising practices, showing an awareness of debates around definitions of these terms
- effectively communicate a theoretically-informed account of the relationship between forms of knowledge and forms of embodied subjectivity and sociality
- use key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being
- critically discuss ethics in contemporary practices and debates around normalisation of ‘the body’

Assessment tasks

- Reflective summaries
- Essay outline & meeting
- Participation
- Essay
- Reflection

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:
Learning outcomes

• identify the ways in which ‘the body’ is understood and experienced across a range of contexts
• interrogate key concepts around ‘the body’ and normalising practices, showing an awareness of debates around definitions of these terms
• effectively communicate a theoretically-informed account of the relationship between forms of knowledge and forms of embodied subjectivity and sociality
• use key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being
• actively engage with the process of learning and reflect on own work to identify opportunities for further development

Assessment tasks

• Reflective summaries
• Essay outline & meeting
• Participation
• Essay
• Reflection

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

• identify the ways in which ‘the body’ is understood and experienced across a range of contexts
• interrogate key concepts around ‘the body’ and normalising practices, showing an awareness of debates around definitions of these terms
• effectively communicate a theoretically-informed account of the relationship between forms of knowledge and forms of embodied subjectivity and sociality
• use key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being
• critically discuss ethics in contemporary practices and debates around normalisation of
‘the body’
• actively engage with the process of learning and reflect on own work to identify opportunities for further development

Assessment tasks
• Reflective summaries
• Essay outline & meeting
• Participation
• Essay
• Reflection

Creative and Innovative
Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Assessment task
• Reflection

Effective Communication
We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes
• interrogate key concepts around ‘the body’ and normalising practices, showing an awareness of debates around definitions of these terms
• effectively communicate a theoretically-informed account of the relationship between forms of knowledge and forms of embodied subjectivity and sociality
• use key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being
• critically discuss ethics in contemporary practices and debates around normalisation of ‘the body’
• actively engage with the process of learning and reflect on own work to identify opportunities for further development
Assessment tasks

- Reflective summaries
- Essay outline & meeting
- Participation
- Essay
- Reflection

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcome

- critically discuss ethics in contemporary practices and debates around normalisation of ‘the body’

Assessment tasks

- Reflective summaries
- Participation
- Essay

Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

Learning outcomes

- critically discuss ethics in contemporary practices and debates around normalisation of ‘the body’
- actively engage with the process of learning and reflect on own work to identify opportunities for further development
Assessment tasks

- Reflective summaries
- Participation
- Essay
- Reflection

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Assessment task

- Reflection

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Assessment task

- Reflection

Changes from Previous Offering

The readings for the unit have been updated in the light of recent theoretical work, for instance, with the inclusion of Mack Hagood's 2017 work on apps and tinnitus.

Over the last two years we have trialled autobiographical reflections as a final assessment. This assessment was devised to help students avoid thinking about the unit as relating simply to "others" bodies and to think about their own implication in the cultural shaping of "normal" and "abnormal" bodies. The inclusion of an autobiographical reflection responds to educational theory which suggests deep learning is enabled when students can relate ideas to their own lives.

This assessment was well received by last two cohorts of students and some excellent work was produced. Students with an interest in media production (or a preference not to present their ideas face to face to the class!) have had the opportunity to present their reflections via online
video or audio recordings. Students in 2019 will be given an opportunity to see a range of types of reflection produced over the past two years to stimulate their own ideas for the final assessment - with permission, of course, of the creators of the reflections.

In the light of the increasing number of students taking the option of posting reflections on line and to ensure equity in the timing of assessments, all "live" in-class presentations will be presented in Week 13.
