Unit description

This unit broadens students' understanding of contemporary China's commercial law system, from both international and national perspectives. As China's Five Year Plans are crucial to understanding how China has developed and continues its development, they will be explored in detail in this unit. It also explores major changes in law and policies regarding labour issues, company, Corporate Governance, and foreign investments. China, the second largest economy in the world, has to address the downside of production exhibited through the environmental degradation of its air quality, water and waste. As these issues and that of energy production are the focus of China's development programs for the twenty-first century, they are examined in the latter part of this unit.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Explain the importance of business culture as it operates in China.

Identify, explain and critique issues concerning the characteristics and principal elements of Chinese commercial law.

Carry out effective legal research relevant to the Chinese commercial legal system.

General Assessment Information

Class Participation

Students are required to participate in weekly class seminar discussions and reflective activities.

Criteria upon which class participation is assessed are: students' preparation, understanding of the materials, depth of arguments, presentation skills, and legal research (detailed explanations of the assessment criteria and marking rubric are provided on the iLearn site of the Unit).

Feedback in writing will be provided to individual students in class in Week 8.

Estimated Student Workload (outside class time): on average, 3 hours per week from Week 1 to Week 13 (except Week 8).

Presentation

Students will need to make an oral presentation (with PowerPoint slides) in class on 1 October 2019 (Week 8). Students must use PowerPoint slides to assist presentations.

Each student will need to submit a research topic and an abstract of 100-150 words (for his/her presentation and Assignment) to the unit convenor via email by 12 August 2019 for approval. Students are strongly encouraged to submit the proposed topic and abstract to the unit convenor as soon as possible. Each student will be informed whether his/her proposed topic is approved so that he/she can start to conduct research and prepare a verbal presentation (with PowerPoint slides) to be made in class in Week 8. The proposed research topic must be a topic that is commercial law-related AND within any one of the topic areas listed below. If a student wishes to research outside of these topic areas, prior approval from the unit convenor is required.

1. Foreign investment
2. Consumer protection / food safety
3. Electronic commerce
4. Sustainable development in China
5. Labour/employment law
6. Anti-monopoly
7. Intellectual property
8. Company law
9. China's "One Belt, One Road"

10. China and the World Trade Organisation

Students need to submit their PowerPoint slides (in electronic version: PPT format) to the unit convenor via email no later than 30 September 2019.

Criteria upon which presentation is assessed are: students' preparation, understanding of the materials, depth of arguments and critique, presentation skills, and legal research (detailed explanations of the assessment criteria and marking rubric are provided on the iLearn site of the Unit).

Marks on the Presentation will be released via Gradebook on iLearn in or before Week 9.

No extensions of time will be granted in relation to the making of the presentation. Students who have not made the presentation in class in Week 8 will be awarded a mark of 0 (ZERO) for the presentation, except for cases in which an application for special consideration is made and approved.

Feedback in writing will be provided to individual students in class in Week 9.

Estimated Student Workload (outside class time): on average, 3-3.5 hours per week from Week 1 to the date of Class Presentation in Week 8.

Assignment

Students will be required to submit an Assignment (excluding footnotes and bibliography: 3,300-3,500 words). The research topics will, as described under Presentation above, be chosen by the students (subject to the convenor's approval).

The Assignment is research based.

Criteria upon which assignment is assessed are: the contents, structure, presentation, and referencing (footnoting and bibliography) of the assignments which show the students' understanding of the materials, the depth of arguments and critique, the thoroughness of legal research, and adequacy of referencing (detailed explanations of the assessment criteria and marking rubric are provided on the iLearn site of the Unit).

Footnotes and bibliography (in Australian Guide to Legal Citation (4th ed) style) are required.

Students must before 4:00 p.m. on 11 November 2019 hand in BOTH an electronic version of the Assignment via TURNITIN on the iLearn site of this unit and a hard copy of the Assignment to BESS (Business and Economics Student Services).

For both BESS and TURNITIN: The first submission is final. Do NOT submit to BESS more than once. Do NOT submit via TURNITIN more than once. It is the student's responsibility to ensure that work is submitted correctly prior to the due date. No hard copies of assessments will be accepted alone and only Turnitin records will be taken as records of submission. Multiple submissions via Turnitin are NOT POSSIBLE in this unit.

Originality reports are NOT made available to students to view and check their work. Please refer to these instructions on how to submit your assignment through Turnitin. Should you

have questions about Turnitin or experience issues submitting through the system, you must inform your Unit convenor immediately. If the issue is technical in nature, you may also lodge OneHelp Ticket or refer to the IT help page. It is the responsibility of the student to retain a copy of any work submitted. Students must produce these documents upon request. Copies should be retained until the end of the grade appeal period each term. In the event that a student is asked to produce another copy of work submitted and is unable to do so, they may be awarded zero (0) for that particular assessment task.

In view of the time given to students to complete the Assignment, no extensions of time will be granted for submission of the Assignment. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). For example, if the Assignment is worth 50 marks, a student is 23 hours late in submission and (before penalty) this student's mark is 40, the penalty will be a deduction of 5 marks (50 marks x 10% = 5 marks) (i.e. this student will obtain 35 marks for the Assignment). This penalty does not apply for cases in which an application for special consideration is made and approved.

Because the University's policy stipulates that "all assessments worth 20% or more must be archived" and the Assignment is the last assessment task, all the Assignments will be retained by the University. For viewing of the marked Assignments after the University has released the final results, please make arrangement with the administrative staff of the Department of Accounting and Corporate Governance. Feedback is provided on each of the marked Assignments.

Estimated Student Workload (outside class time): on average, 5.5 hours per week from Week 1 to 11 November 2019.
